BACTERIAL DIGESTANT
biological drain treatment

available in 2-1 gallon and 5 gallon

For use in greases traps and slow drains

**Features**
- Four different bacteria
- Non caustic

**Benefits**
- eat soils that cause clogs
- won't harm plumbing

**USAGE DIRECTIONS:**
Add 6 ounces per evening to a standard grease trap, or pour 4 ounces in each clogged drain and let work over night. Usage may vary depending on clog. Do not add bleach or quaternary sanitizers, they will kill the bacteria that eats the clogs. Material Safety Data Sheet (MSDS) has a complete listing of hazards, precautions, first aid statements, storage and handling information.
