NEUTRAL CLEANER

NEUTRAL CLEANER is a synthetic, low-foaming neutral detergent formulated for safe and effective use on all types of floors. Low-foaming action makes it especially useful with automatic scrubbing equipment and wet-vacs. Neutral pH makes it ideal for use on floors which have wax or acrylic finishes. NEUTRAL CLEANER is non-toxic, biodegradable, non-flammable, and non-corrosive. It contains no butyl or petroleum solvents, will not build up or scale equipment, and has a fresh scent.

DIRECTIONS FOR USE

Directions for Use:

Due to various application methods and soil conditions, the following dilutions are given as a guideline. Experiment to find the most effective and economical dilution for each application.

LIGHT SOIL: For daily damp mopping, auto scrubbing and use on finished floors, use 1 ounce per gallon of water.

MEDIUM SOIL: For general cleaning, damp mopping, and use on low maintenance floors, use 2 ounces per gallon of water.

HEAVY SOIL: For scrub and recoat procedures and heaving scrubbing of non-finished floors, use 8-12 ounces per gallon of water.*

*Dilutions of more than 2-4 ounces per gallon of water may require the use of a defoamer in the recovery tanks of automatic and wet-vacs.

**Please consult your Sales Representative or call (888) 260-0201 for additional use directions.*
